What to include in a first enquiry

- Product and format (for example: green arabica coffee, 60 kg bags).
- Quantity and how often you expect to order.
- Packaging required — retail pack size, bulk bag or export pack.
- Destination city or port.
- Preferred commercial terms (EXW, FOB, CIF, CFR, DAP or to be agreed).
- Any certification or labelling requirement for your market.

Packaging formats

Typical retail formats are 250 g, 500 g and 1 kg. Bulk and export packs are commonly 25 kg, with other formats agreed per order. Private-label packing and labelling are available for agreed products and volumes.

Quality approach

Quality is written down before it is promised. Each order is defined by a specification — grade, moisture, foreign matter, pack weight and format as relevant to the product — and the lot is checked against that specification before dispatch.
